

C50-U

50LTR 240V COMPRESSOR UK

Compressor Details

Featuring a tank with over double the capacity of the 24 litre version, this compressor is ideal for situations where minimal motor running is required. The design includes ball style drain valves and a lubricated pump for maximum durability.

50 litre tank and powerful 2.2hp motor, gives over 230 litres per minute air displacement.

Oil lubricated pump for long term durability and performance.

Ball style drain valve designed for easy access and better durability.

Oversized Twin output gauges and easy to use regulator makes setting correct air pressure quick and easy.

Complete with 10 metre hose.
